HASSNAIN ALI

JUNIOR PHP DEVELOPER

Rawalpindi, Pakistan | +92 346 5637560 | ha4216845@gmail.com

PROFESSIONAL SUMMARY

Computer Science graduate and Junior PHP Developer with hands-on experience supporting PHP/MySQL web applications and practical knowledge of Laravel, HTML5, CSS3, Bootstrap, JavaScript, jQuery and AJAX. Familiar with relational database concepts, CRUD operations, RESTful APIs, JSON, API integration and backend/frontend debugging workflows.

Motivated to grow in a structured PHP/Laravel environment, strengthen backend engineering skills and contribute to reliable, maintainable web applications while learning from experienced developers and real production workflows.

CORE COMPETENCIES

- Problem solving
- Debugging & troubleshooting
- Team collaboration
- Responsive web development
- Time management

TECHNICAL SKILLS

PHP	Laravel	MySQL	HTML5
CSS3	Bootstrap	JavaScript	jQuery
AJAX	RESTful APIs	JSON	Relational DB
CRUD	Git / GitHub	Postman	MVC basics

PROFESSIONAL EXPERIENCE

Junior PHP Developer — QMH Tech **Sep 2025 – Present**

- Support development and maintenance of PHP/MySQL web applications, including assigned feature updates and bug fixes.
- Work with relational database tables, CRUD operations and SQL queries while keeping application data structured and consistent.
- Assist with frontend changes using HTML, CSS, Bootstrap, JavaScript, jQuery and AJAX for responsive and interactive interfaces.
- Work with RESTful API integration and JSON request/response data, and use testing/debugging techniques to investigate issues.
- Collaborate with team members on development tasks and follow existing project structure, requirements and coding practices.

TECHNICAL KNOWLEDGE

PHP & Laravel

PHP fundamentals, forms, validation, sessions and Laravel MVC basics including routing, controllers, models and middleware concepts.

MySQL & relational databases

Tables, primary/foreign keys, one-to-many relationships, CRUD operations, SQL queries and general relational database principles.

REST APIs & JSON

GET, POST, PUT/PATCH and DELETE methods, HTTP status-code awareness, JSON request/response structures and API testing/integration with Postman.

Frontend integration

HTML5, CSS3, Bootstrap, JavaScript, jQuery and AJAX for forms, dynamic interactions and asynchronous communication with backend endpoints.

RELEVANT LEARNING PROJECT

REST API Task Manager — PHP, MySQL, JavaScript

- Built as a practical learning project to understand REST API development and frontend integration.
- Covers CRUD endpoints using GET, POST, PUT/PATCH and DELETE with JSON request/response handling.
- Includes authentication flow, validation, search/filtering, pagination, Postman testing and JavaScript Fetch API integration.

DEVELOPMENT TOOLS & WORKFLOW

Git / GitHub	Postman	MySQL tools	Debugging
Basic version control and repository workflow	REST endpoint testing, headers and JSON bodies	Database inspection, queries and table management	Browser/network checks and application troubleshooting

EDUCATION

BS Computer Science PMAS Arid Agricultural University Rawalpindi | 2020–2024 **CGPA: 2.8**	**Intermediate (ICS)** Punjab College 2018–2020 **Marks: 79%**	**Matric (Science)** Shining Star School Rawalpindi | 2018 **Marks: 74%**

CERTIFICATIONS & CREDENTIALS

- Front-End Developer Internship Certificate — Rawalpindi
- Bachelor of Science in Computer Science — completed 2024

HOBBIES

Cricket • Snooker • Exercise • Travelling

PHP / Laravel • MySQL • RESTful APIs • JSON • JavaScript / jQuery / AJAX • Web Application Development
